Friday, 05 February 2010

It seems that even Samsung has their very own e-book reader, dubbed as the E61. Generally, I understand that majority of the electronic manufacturers in the industry has produce their e-book readers in the market. And with Samsung unleashing their e-reader, I m pretty sure that this completes the entire cycle.

On the other hand, the Samsung E61 e-book reader is a little different, whereby you can expect the e-reader to come with its own QWERTY keyboard. Other features included are 6-inch 600x800 resolution screen, and the battery is removable as well.

We'll take a look at Samsung s latest e-reader:
